Notice

This permit becomes null and void if work or construction authorized is not commenced within 6 months, or if construction or work is suspended or abandoned for a period of 6 months at any time after work is commenced.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of this permit does not presume to give authority to violate or cancel the provisions of any other State or local law regulating construction or the performance of construction.

Permit # _____

Double Fee: With respect to the electrical permit where work is started or proceeded with prior to obtaining the applicable permit, the fees specified shall be doubled. Such double fees shall not relieve any person from fully complying with the requirements in the execution neither of the work nor from any other penalties prescribed in the code.

Electrical Permit Application

Date: _____

Address Of Project: _____

We, the General Contractor and the Electrical Contractor request the use of temporary utilities for construction and the testing of equipment. The temporary electrical permit will be in force for 3 months (90 days). If more time is required to complete the building, a new application and fee shall be submitted by the Electrical Contractor.

We understand that this in no way gives us permission to occupy or use for storage purposes any building or portion thereof, unless all inspections for the building have been approved and a Certificate of Occupancy issued ******Up to a \$200.00 (Two Hundred Dollar) fine per day can be assessed when a structure is occupied prior to an Occupancy Certificate being issued by the City******. We further understand that the temporary utilities may be disconnected for any violation of the Building Code. We assume the responsibilities for any violation of this agreement. We will indemnify and hold forever harmless the City of Missouri City, its officers and employees from any and all claims or causes of action alleged to have been caused directly or indirectly by the temporary use of utilities for which this application is made.

Electrical Code:

The City Of Missouri City has adopted the 2005 edition of the National Electric Code with the following revisions:

1. All materials sold or installed in the City must comply with the National Electrical Code and must be properly marked and identified.
2. Non-metallic sheathed cable may be used only within buildings or structures of frame or frame and veneer where such buildings are designed and used exclusively for dwellings or temporary work.
3. Any wire or cable utilizing aluminum conductors or copper-clad aluminum conductors smaller than No. 2 American gauge is prohibited.
4. All lateral service entrance conductors shall be installed in an approved raceway except for temporary work.
5. A temporary electrical connection shall be required on all new residential construction before a final electrical inspection is to be made.
6. All residential wiring shall be in wire size no smaller than No. 12 American gauge.
7. All persons engaged in electrical work in Missouri City shall be duly licensed and proof of their license in their possession.
